

BEST SCRUB

High Performance Top Scrub Cleaner

Best Scrub is specifically designed for the interim maintenance procedure of top scrubbing and recoating. When used as directed, Best Scrub effectively removes the top layers of soiled floor finish preparing the floor surface for recoating. Best Scrub's low foam, no rinse formula leaves a clean, film free surface, preparing it for the application of new layers of floor finish. This is the perfect product for any type of floor maintenance program to help extend the time between restorative stripping procedure's. Best Scrub can also be used to remove the factory seal from newly installed VCT flooring.

Uses

- Interim maintenance procedure - To remove soiled top layers of finish.
- Factory seal remover - To remove protective factory coating from new VCT floor tiles.

Features

- Low foaming - Virtually no foam in scrubber recovery tanks.
- No residue - Does not require flood rinsing.
- Pleasant fragrance - No harsh odors.
- Effectively removes top coats of finish without attacking bottom layers.

Emulsification	Excellent
Foaming	Low
Fragrance	Pleasant
pH	8.0 - 10.0
Rinsability	Complete
Shelf life	1 year
Water Solubility	Complete
Wetting	Excellent

Directions For Use

Read the entire label before using this product.

To be used as a top scrub cleaner in preparing a coated floor surface for recoating. Dilute Best Scrub 8 1/2 oz./gal. or 65 mL/L (1:15). Apply solution to floor using a mop or automatic scrubber. Agitate solution using a green cleaning pad or brush. Remove solution from the floor with a mop, wet vacuum, or automatic scrubber. When removed properly no flood rinsing is required. After the floor has dried check for residue. If any residue is present a rinse will be needed. If initial scrubbing does not remove embedded dirt, the floor may need additional scrubbing or may require stripping.

Safety

Keep out of reach of children. For institutional and commercial use. **CAUTION:** May cause skin and eye irritation. Contains amphoterocarboxylates. **FIRST AID:** If splashed on skin or in eyes, flush with large quantities of water for 15 minutes. Seek medical attention if irritation persists. If inhaled get to fresh air. If swallowed do not induce vomiting. Drink a large quantity of water. Do not induce vomiting. Seek immediate medical attention.
